

## Changes

*text&music: Dănu Extrem © SUISA*

The day when i was born  
When i saw that day's light  
What did i do where did i come from  
i still don't know today  
The night when i flew to earth  
from my star there far away  
My mother was lying on the sofa  
and the sperma found the egg  
since then i changed so much  
and noone knows why it is no more like it was before

I don't know why  
it takes so much to fly  
as hard as i try  
i don't know why

Yesterday people worked with pleasure  
And stuck believving in their fate  
They were busy enough to keep things together  
And they didn't ask what for it has to be  
They forgot that time will never end  
They forgot the never ending motion  
But soon the fish will find no food  
And aquarius will take them to the land  
since this time i changed so much  
and noone knows why it is no more like it was before

I don't know why  
it takes so much to fly  
as hard as i try  
i don't know why

But soon some people found out  
It won't work like this  
They woke me up from my deep sleep  
Now i believe nomore in crazy stories  
I believe we can fly again  
That we can do more than we did before  
And i tell you this is no lie  
Living with the rats is not my aim  
since this time i changed so much  
and noone knows why it is no more like it was before

I don't know why  
it takes so much to fly  
as hard as i try  
no i don't know why
