

Oh Lord

Text & music: Dănu Extrem © SUIISA

Oh Lord please listen to me, I don't know who else could understand
oh Lord please don't be angry with me, I only come when I feel so down
So I - I'm praying to you, I'm praying to you...

Oh Lord please open my eyes, sometimes, I am so blind
oh Lord please show me the way, there are times I don't know where to go
So I - I'm praying to you, I'm praying to you...

Yes we have what we need and we don't want no more
but we sometimes forget, that you created us.

Oh Lord, please give us time, we are in a catch 22
oh Lord, please give us peace, the only thing we hear is noise
So I - I'm praying to you, I'm praying to you...

Oh Lord please protect our souls, it's still a long way for home
oh Lord please give us brightness, we can't exist, without You
So I - I'm praying to you, I'm praying to you...

Yes we have what we need and we don't want no more
but we sometimes forget, that you created us.

on the first day, God created day and night....

Yes we have what we need

on the second day, God created the sea and the sky....

Yes we have what we need ...

on the third day, God created the land and the trees and the flowers that grow on....

Yes we have what we need ...

on the fourth day, God created the sun, the moon and the stars....

Yes we have what we need ...

on the fifth day, God created all the creatures of the sea and of the air....

Yes we have what we need ...

on the sixth day, God created all the animals and he created Adam....

Yes we have what we need ...

on the seventh day, God had finished his work and rested.

Yes we have what we need and we don't want no more
but we sometimes forget, that you created us.
